

Symmetry Medical

Orthopedic Implant Finishing Industry Leader

Symmetry Medical specializes in bringing Orthopedic implants from a cast or forged state to a completed product. Our expertise includes:

Experience: Symmetry Medical has finished over 750,000 implants using multiple finishing processes.

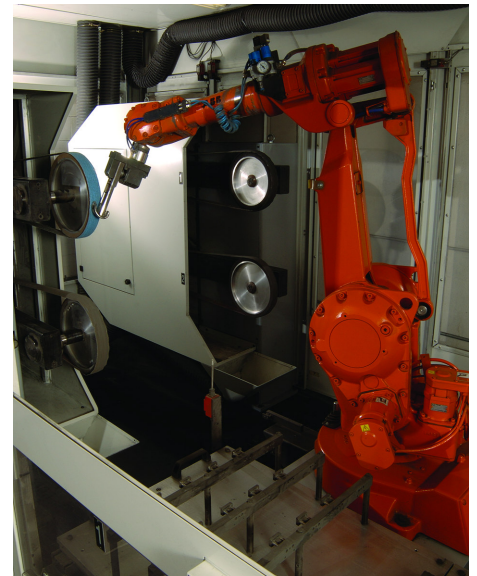

Quality: ISO 9001-2000 qualified facilities with exceptional customer ratings and references.

Lead Time: Focused on quick turn jobs offering 12-24hr lead times.

Low Cost: On most projects we offer the OEMs a more cost effective solution than the current-in-house process.

Process Design: Supporting customers in the development of streamlined finishing processes to meet design specifications, aesthetic expectations and surface finish requirements.

Contact your local Sales Manager for more information.

CORE COMPETENCIES

- CNC Machining
- Robotic Finishing
- Robotic Polishing
- Hand Finishing
- Cruciate Box Finishing
- Automated Shot Peening
- Blasting
- Vibratory Finishing
- High Energy Centrifugal Finishing
- Ultrasonic Cleaning
- Passivation
- Laser Marking
