

# MicroPak<sup>®</sup>

## Microsurgical Instrument Tray

### BENEFITS

- Helps minimize costly repairs of your most delicate surgical instruments.
- Instruments are held safely in place with non-slip mats or silicone holding bars.
- Available in a full range of sizes to accommodate various delicate instruments.
- Engineered with highly resilient plastic polymers to withstand the rigors of repeated use and sterilization.
- Transparent lids allow for easy identification of instruments during transport, sterilization or storage.

Also available: MicroPak Diamond Knife style as shown.

The Symmetry Medical MicroPak<sup>®</sup> Instrument Trays are designed for use with a wide variety of microsurgical and other delicate instruments. These durable, lightweight plastic trays are engineered for maximized protection and ease of handling, with transparent lids for quick instrument identification.

Made of rugged, state-of-the-art plastic polymers, the Symmetry Medical MicroPak is compatible for use with most sterilization methods currently available.
